REPLACEMENT METRIC FLAT FACE FITTINGS

Replacement Fittings for Most Foreign Manufactured Equipment

Mentor, OH, December 27, 2016— Malone Specialty Inc., a quality manufacturer of industrial hose and hose fittings for over 30 years, is now manufacturing and stocking standard Metric Flat Face Fittings.

Steve Malone, President of Malone Specialty Inc. stated, "For years we have been providing metric fittings and adapters used by our customers in agriculture equipment, manufacturing lines, industrial automation systems, and every heavy industrial arena, and now we are proud to stock a standard line of Metric Flat Face Fittings. These are top quality and built to last longer than most original fittings included in overseas manufactured equipment.

Stocking Straight, 45 Degree, and 90 degree Elbows; plus Malone Specialty Inc. can custom manufacture to any special requirements.

Fittings specifications can be viewed on our site:
