## **FLUID CONNECTION SPECIALISTS**

### **Introduction**

Malone Specialty Inc. is one of the leading suppliers of metric and standard fluid connecting devices in the trucking and industrial industries in the United States and Canada. With complete engineering capabilities, Malone Specialty Inc. can design fittings, hose assemblies and specialty kits to original equipment standards.

One of the greatest challenges is communicating with our customers on identifying either the thread type or type of component that they need. To assist in this problem, Malone Specialty Inc. has developed this catalog to be used with the proper tools (MSIK1 Thread Identification Kit) as a reference when identifying fittings.

For problems arising from fittings that are easier to see on paper, drawings that need to be quoted on or for written orders, Malone Specialty has available to you a toll free fax line listed below.

### **Partial Delivery**

Unless otherwise agreed, Malone Specialty Inc. will make partial shipments and invoice them individually.

### **Returned Goods**

All returns must be authorized by Malone Specialty Inc. before shipment. Freight on all returns must be prepaid. A restocking charge will be made on all returned goods. Non-standard and special order products are non-returnable. Credit on account will be issued for authorized returns.

The limited warranty given herein is limited to repair or replacement of a defective product, and does not apply to any product which is used in an application for which it was not designed, improperly installed, misused, damaged, or altered in any way after sale. This warranty does not cover labor, parts, or materials of a unit or an assembly in which the product is used.

EXCEPT AS PROVIDED HEREIN, THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, GIVEN RESPECTING THE PRODUCT.
